ABOUT ME

Mobile App Developer specializing in Android development with **Kotlin** and cross-platform solutions using **Flutter**. Experienced in building responsive, user-friendly applications with **clean architecture** to ensure maintainability and scalability. Proficient in integrating **RESTful APIs**, **Firebase**, and **Google Maps API**. Currently expanding expertise in **Jetpack Compose** for modern, declarative Android UIs. Strong understanding of the **software development lifecycle**, with a focus on delivering **user-centric solutions** aligned with business goals. A proactive **team contributor**, committed to writing clean, efficient code, and applying **SOLID principles** to ensure robust solutions.

WORK EXPERIENCE

PT Edukasi Rekanan Anda **Jakarta, Indonesia**
Android Developer Intern (Kampus Merdeka Internship Program) August 2023 – December 2023

- Collaborated with back-end, UI/UX, and QA teams to deliver **user-friendly, reliable applications**.
- Practiced writing **clean, readable code** by following company coding standards and maintaining thorough documentation.
- Contributed to **refactoring the company application**, improving its **readability, maintainability, and scalability**.

PROJECTS

Jejak Anak **Bandung, Indonesia**
Android Developer May 2024 – August 2024

- Developed an **Android application** using **Kotlin** to monitor children's locations with **geofencing**, utilizing the **Winding Number algorithm** for precise boundary detection.
- Integrated **Firebase Realtime Database** for **real-time data synchronization**, **Firebase Authentication** for secure user access, and **Google Maps API** to visualize user locations and geofenced areas on an interactive map.
- Implemented **Hilt** for dependency injection and applied **Clean Architecture** principles to ensure a **maintainable, scalable, and well-structured** codebase.

Learning Management System (LMS) **Jakarta, Indonesia**
Android Developer October 2023 – December 2023

- **Refactored** the codebase of an **Android Learning Management System (LMS)** application, improving code readability, maintainability, and scalability.
- Implemented **Clean Architecture** principles to establish a well-structured, modular codebase that supports efficient testing and future development.
- Created comprehensive **technical documentation** to support code understanding, onboarding, and long-term maintainability.

Tryout App **Jakarta, Indonesia**
Android Developer September 2023 – October 2023

- Collaborated in a **team** to develop a **tests and quizzes Android application** using **Kotlin**, focused on providing a **user-friendly interface** for self-assessment and learning.
- Implemented **Clean Architecture** to ensure a **modular, maintainable, and scalable** codebase.

- Integrated **Firestore Realtime Database** for real-time data handling and **Firestore Authentication** for secure user access.

InvestKuy
Fullstack Developer

Bandung, Indonesia
May 2023 – June 2023

- Collaborated with a team to develop a peer-to-peer money lending **mobile application**, enabling secure and efficient loan transactions between users.
- Built **RESTful API** using **Node.js** and **Express.js**, with **MySQL** as the relational database for reliable data management.
- Developed a **responsive cross-platform mobile application** using **Flutter**, implementing **Cubit** for effective and organized state management.

BOOTCAMP EXPERIENCE

Dicoding Indonesia

Remote

Kampus Merdeka Study Independent Program

August 2022 – Dec 2022

- Gained comprehensive training in **Android development**, covering the fundamentals of **Kotlin programming**, software architecture, and common **design patterns** in Android applications.
- Successfully completed **8 structured courses** covering software development fundamentals, programming logic, version control with Git and GitHub, Kotlin programming, Android development (fundamental and intermediate levels), SOLID programming principles, and UX design basics.
- Completed multiple **project-based assignments**, culminating in a **capstone project**: a fully functional **crowdfunding Android application** demonstrating the application of acquired skills in real-world scenarios.
- **Graduated as one of the top-performing participants**, recognized for outstanding performance and consistency throughout the program.

EDUCATION

Universitas Pendidikan Indonesia
Bachelor of Computer Science

Bandung, Indonesia
2020 - 2024

- GPA: 3.93/4.00
- Activities: Google Developer Student Clubs UPI, Open-Source Research Society Kemakom UPI

ORGANIZATIONAL EXPERIENCES

Google Developer Group Bandung
Volunteer

Bandung, Indonesia
2023 – 2024

- Designed **promotional posters** for **social media**, merchandise, and event properties, contributing to consistent and engaging visual branding.
- Joined the **documentation team** for **DevFest Bandung 2023** and **Build with AI 2024**, responsible for capturing and organizing event highlights and visual content.

Google Developer Student Clubs UPI
Core Team

Bandung, Indonesia
October 2022 – July 2023

- Contributed as a **creative designer**, producing **merchandise and promotional posters** for social media campaigns and organizational events.
- Served as a **mentor** in the **Android Development division**, providing guidance and support to members.

- Created structured **learning materials** for Android Development study jams to enhance peer learning.
- Acted as a **speaker** in an Android Development study jam, sharing technical knowledge and best practices with fellow members.

Open-Source Research Society Kemakom UPI
Member

Bandung, Indonesia
2021 – 2022

- Designed **educational Instagram content** focused on **programming topics**, aimed at increasing engagement and promoting tech literacy through visually appealing and informative posts.

CERTIFICATIONS

• Dicoding Flutter Expert Class Certificate	August 2025
• Dicoding Flutter Intermediate Class Certificate	July 2025
• Dicoding Flutter Fundamental Class Certificate	July 2025
• Kampus Merdeka Internship Certificate	December 2023
• GDG Bandung Volunteer Certificate	December 2023
• GDSC UPI Core Team Certificate	July 2023
• GDSC UPI Mentor Certificate	July 2023
• Dicoding Android Developer Expert Class Certificate	February 2023
• Kampus Merdeka Study Independent Certificate	December 2022
• Dicoding Android Intermediate Class Certificate	November 2022
• Dicoding Android Fundamental Class Certificate	September 2022
• Others	

SKILLS

-
- **Hard Skills:** Kotlin, Java, Javascript, Dart, C/C++, HTML, CSS, PHP, Android (Hilt, Android Jetpack, Jetpack Compose, Coroutine, Flow, Room, Coil, Retrofit, MVVM, MVI), Flutter (GoRouter, Provider, Bloc, Cubit, get_it, dio), ExpressJs, ReactJs, Laravel, MySQL, SQLite, Firebase (Realtime Database, Storage, Authentication, Crashlytics Analytics), Git, Figma.
 - **Soft Skills:** Project Management, Public Speaking, Collaboration, Problem-Solving, Adaptability
